

EQUIPTER®  
CR 8400

CR 8400

## A SMALL MOBILE CRANE

The Equipter® CR8400 crane provides a unique option for various manual labor industries. It is a small, self-propelled crane that is still able to do the heavy lifting that your industry requires. Equipter has created this mobile crane to provide increased maneuverability and advanced functionality at a lower price point in comparison to full-size cranes.

*\*The CR8400 pictured here features custom modifications to haul 1,000-gallon tanks. Contact Equipter for details.*

## BENEFITS OF THE CR8400 CRANE

The Equipter CR8400 crane can be towed and driven, making things more convenient on and off the job site. Once your CR8400 crane is in place, the radio control crane feature gives you additional control over the process. You are able to lift and lower materials into delicate or hard-to-reach places, like the backsides of construction sites or residential backyards that full-size cranes cannot get to without damaging property.

# CR8400 FEATURES

### TOWABLE

You can hook up the CR8400 crane to your truck easier than any ordinary trailer. Then simply load materials onto the crane bed and haul it to your job site.

### DRIVABLE

The CR8400 is self-propelled with a gasoline-powered hydraulic system. Its large tires provide exceptional traction and evenly distribute any weight in the trailer bed.

### COMPACT

With a chassis less than 6 feet wide, the CR8400 can easily fit through double-door gates, functioning in tight residential and commercial spaces.

### CUSTOM

When you order the CR8400, you have the option to add a heavy-duty winch to open a new array of possibilities on the job.

## DRIVE SYSTEM

The hydrostatic drive system is powered by a 13 HP Honda engine, allowing you to drive around job sites easily, regardless of what you're hauling.

## STABILIZERS

The CR8400 crane has four independently operated stabilizers, allowing you to safely use the crane on uneven surfaces.

## PRECISE TURNING

Smaller front wheels increase maneuverability with a more precise turning radius.

## WIDE TIRES

Wide tires prevent leaving ruts on customers' lawns and landscapes.

## WHEEL LIFT

The front wheels on the CR8400 crane lift and the drive axle automatically disengages.

# CR8400 SPECIFICATIONS

**GROSS VEHICLE WEIGHT**

7,500 lbs.

**TRAILER TARE WEIGHT**

5,280 lbs.

**TRAILER CAPACITY** (road towing)

2,220 lbs.

**BED SIZE**

5 ft. 3 in. - 8 ft. 11 in.

**OVERALL WIDTH**

5 ft. 11 in.

**OVERALL LENGTH**

16 ft. 5 in.

**OVERALL HEIGHT**

8 ft. 10 in.

## CR8400 CRANE ARM - REACH & LOAD

*\*The last extension (3.5') is operated manually, not by control panel*

## CR8400 FOOTPRINT

**MAX LIFT**

4,431 lbs.

**MAX REACH**

23 ft.

**LIFT CAPACITY** (max reach)

893 lbs.

**SLEWING ANGLE**

395°

# CR8400 ACCESSORIES

## TRACK MATS

Track mats give added protection to prevent potential damage to lawns or driveways.

## OUTRIGGER PADS

Outrigger pads disperse the weight of the equipment to protect the ground beneath.

## DEBRIS BAG

Equipter debris bags hold up to 4 yds. (2,500 lbs.) of debris, ideal for remodeling and demolition.

## OUR HISTORY

Aaron Beiler founded Equipter after 15 years of running a successful residential roofing business. While working in the roofing industry, Aaron and his sons were always looking to increase profits and efficiency. They recognized that the key to this was debris removal and began creating innovative equipment to improve debris management.

Since 2004, Equipter has continued to evolve and innovate, and we now have a line of products that help business owners in a variety of industries.

## OUR MOTIVATION

**Innovation** drives us. That's been true since day one. Equipter began when Aaron, with help from his family, developed a vision for a new way to work that continues to revolutionize debris management today.

**Excellence** sustains us. We started as a roofing replacement business, so we understand firsthand that contractors need equipment as tough as their crews. Every Equipter product is engineered and manufactured to withstand daily wear-and-tear on the job site.

**Relationships** guide us. Since 2004, our team has worked hard to build long-term relationships based on respect and mutual trust. We enjoy personal relationships with our customers and business partners.
